PROPOSED AMENDMENT FOR EXAMINER'S REVIEW

Sir:

Per the telephonic discussion of today (July 21, 2003), applicants submit proposed amendment to claim 17 for the examiner's review. In the last interview (dated January 22, 2003), it was indicated that claim 17 can be placed in condition for allowance if it is properly amended to describe the configuration illustrated in the elected embodiment. The last amendment (dated March 4, 2003) attempted to clarify the claims, but the examiner issued a § 112 rejection. The proposed amendment is to overcome the § 112 rejection and further clarify how the inside terminal is led outside the closing magnetic core through a notch.

The examiner is requested to contact Lyle Kimms at 703-248-8719 after reviewing the following proposed amendment.
